¹ Data transfer rates are controlled by a number of variables, including but not limited to: the remote server, Internet traffic, our network, your network, and your computer. Pixius Communications, LLC is only responsible for the portion of the transfer rate on our network.

² Advertised performance listed represent up to the download and upload speeds, which may vary and are not guaranteed.

³ Pixius will replace Pixius issued router when deemed defective by a Pixius technician.

⁴ Pixius will replace standard installation parts, includes: subscriber radio module, antenna, surge suppressor, and mounting brackets when deemed defective by a Pixius technician.

All terms subject to availability. Prices may change without notice. See Business Wireless Contract for final terms and conditions.
